

THE INTERNATIONAL KITCHEN

The International Kitchen, founded in 1994, is the foremost culinary company offering over 90 hands-on cooking vacations in Europe. Weeklong all-inclusive programs include accommodations at small and charming historic hotels, inns, villas, or farms in beautiful and scenic locations, hands-on classes, all meals with local wine, market visits, wine, olive oil and cheese tasting, visits to historic sites and transportation throughout.

Classes are led by a variety of teachers, from Michelin chefs to local caterers, to a “nonna” or grandmother who loves to pass on her family recipes with a fierce passion for her heritage. Programs can be confirmed for as few as two people and are never larger than eight or twelve. Karen Herbst, founder and president, has established a policy that

every program is personally visited and experienced so that they are certain they have created an outstanding program to provide you with an unforgettable and magical experience.

The staff at The International Kitchen have all lived and worked in Europe and are all bilingual. If you do not have time for a full program, they offer shorter options as well as one-day classes in many locations. They offer a cultural experience as much as a culinary trip; what better way to get to know the local people than through their gastronomy, which is such an important part of their culture.

Come and cook, eat, drink, laugh and have an experience that will be a memory of a lifetime.
